

Certification in College Teaching Institute, May 9-10, 2019, Michigan State University

Worksheet for Reflections and Applications for Teaching and Learning

Session: Creating Effective Learning Environments Thursday

What skills and techniques did I learn that will help me become a better educator?

- Students learn better when they are free to make mistakes
- Sometimes students can teach each other better than by one single prof.
- It's helpful encourage students to think more deeply

What things am I still uncertain about regarding this topic that I need to investigate further in the future?

- Will some of these techniques work in all environments?  
(courses etc)
- 

How can I apply materials from this session to my own class to enhance the effectiveness of teaching and learning?

- Remember that the material is new to my students
- Smaller groups can allow more customized teaching
- Small groups need a critical mass so students can have enough to teach each other.
